EDUCATION

ABES Engineering College, Ghaziabad *2024 - 2028 (Expected)*

B.Tech in Computer Science & Engineering | CGPA: 7.5/10

EXPERIENCE

Open Source Contributor *Aug 2026 - Present*

Jam (JoinMarket Web UI), Kubeflow, Bitcoin Dev Kit

- Optimized Jam's UTXO hash calculation from $O(n^2)$ to O(n) and fixed block-height 0 handling; both changes were merged and released in v2.0.0-beta.3.
- Diagnosed a Kubeflow Pipelines artifact-preview edge case that displayed a truncation marker when no content was removed; submitted a fix with tests.
- Identified and documented reproducible bugs in Kubeflow SDK and Bitcoin Dev Kit, including root-cause analysis and proposed fixes.

Event Department Member, Technovation Club *May 2025 - Present*

ABES Engineering College

- Planned and managed technical events for the college tech club, coordinating event flow and on-ground execution.
- Hosted event sessions on stage and supported smooth coordination between participants, organizers, and event teams.

PROJECTS

SkinVeda.ai AI-Powered Skincare Platform

React.js, JavaScript, OpenAI API, Google Gemini API, Vercel

- Built an AI-powered skincare platform integrating OpenAI and Google Gemini APIs to generate personalized routine recommendations from user inputs.
- Developed a responsive React.js interface with filter-based product recommendations and dynamic result rendering.

Leftover Food Management Platform **GitHub**

MongoDB, Express.js, React.js, Node.js, JWT, Vercel

- Built and deployed a full-stack MERN application connecting surplus-food donors with local food distribution groups.
- Designed REST APIs for CRUD operations and implemented JWT-based authentication to protect user data and application routes.
